

**FOR IMMEDIATE RELEASE**

April 10, 2020

**Sanitary Sewer Work May Close A Portion of Heritage Trail**

**WHEELING, W.VA.** – Beginning the week of April 13, IPR Northeast will be doing sanitary sewer rehabilitation on behalf of the City of Wheeling for three weeks. During that time period, the use of Heritage Trail on Water Street between 43<sup>rd</sup> and 45<sup>th</sup> streets in South Wheeling may be disrupted from time to time. IPR will do their best to keep interruptions to a minimum. Residents may also notice an epoxy paint type of smell coming from the work area, but that is normal.
