Sewer Work to be Conducted Near Mouth of Wheeling Creek

WHEELING, W.VA. – The City of Wheeling has contracted with Robinson Pipe Cleaning to conduct sewer line work at the mouth of Wheeling Creek near WesBanco Arena beginning on Thursday and continuing for several days. As a part of the project, pipe will be lying on the edge Heritage Trail, but the trail will remain open as the pipe will not interfere with trail users. There could be a nuisance odor in the air associated with the work, but it is not harmful.
